

Abhishek

Software Engineer

City: New Delhi
Nationality: Indian
Languages: English, Hindi

Profile

Software Engineer who is Strong in design and integration with intuitive problem-solving skills. Passionate about implementing and launching new projects.

Ready to learn new technologies and implement them to further improve my knowledge.

Eager to work in a team of dedicated people and serve a key role in the enhancement and development of the project.

Has working knowledge on Angular and Java Microservice Development using Spring framework on an intermediate level.

Also Implemented Nodejs and ExpressJs in case study and upskilling day by day.

Assignments

On Demand Car Wash System

Completed end to end case study of On-Demand Car Wash System along with Google OAuth and testing using Mocha and Chai in MEAN Stack. Material-UI and Angular Bootstrap used for user interface.

E-Phishing Detector

Developed E-Phishing Detector application using PHP and MySQL as Database and HTML+CSS + JavaScript for front-end. It will make sure either if the webpage you are surfing is secure to make online payments and for your passwords or is it unsafe.

Angular for web developers at Internshala

Completed this course and made a responsive blogging website (Scribe) using angular and bootstrap with Firebase authentication and Database.
